

ART & CRAFT

PRIMED ARTIST'S CANVAS

There are various fabric options to choose from on the basis of:

- Double or Triple Priming in standard white and black gesso.
- Selection of fine/medium and coarse grains
- Width range from 48" up to 120" (10 feet wide!)
- Variable roll length options between 1 meter/yard to 100 meters/yards
- Private labeling and packaging options

Our range is best suitable for industries doing bulk production of frames and canvas panels.

PRIMED CANVAS ROLL

We offer a wide variety of primed canvases for your artistic needs.

We manufacture primed artist canvas by coating an acrylic titanium based formulation that holds for years to come.

We coat on 100% Cotton and polyester cotton blended canvases. Our coating capability extends up to **3 meters (118 Inches)**

in width and in various weights from **200 GSM to 700 GSM**. Based on the requirements, we can do double or triple priming with a white or black acid-free titanium/acrylic gesso.

Our primed canvases can be used with oil paints, alkyds or acrylic paints and are suitable for archival and gallery use.

CUSTOMISED TO YOUR NEEDS

As we weave our own canvases, we are flexible in achieving the right product required by our customers. From the weight of the base fabric to the coating add-on, to the width of the canvas, we can offer exactly what you and your market needs. We offer private labelling and custom packaging solutions.

We are capable of supplying bulk 1000 meters jumbo rolls to privately labelled 1/3/6 cut yardages.

Below are the standard primed canvases we carry. Please contact us incase you are looking for a customised solution.

DETAILED TABLE OF OUR PRIMED ART CANVAS

SL NO.	PRODUCT CODE	BASE FABRIC WEIGHT (Oz/Sq. Yards)	FINISHED WEIGHT (GSM)	GRAIN	STANDARD WIDTH (Inches)ss
